## Radiology: Artificial Intelligence

Held to the same high editorial standards found in all RSNA journals, *Radiology: Artificial Intelligence* highlights the emerging applications of artificial intelligence, machine learning and data science in the field of imaging across multiple disciplines.

Published bi-monthly, *Radiology: Artificial Intelligence* is available exclusively online.

# Radiology: Artificial Intelligence

## Meet the Editor

### Charles Edward Kahn, Jr., MD, MS

Dr. Kahn is professor and vice chairman of radiology, Perelman School of Medicine, and senior fellow of the Institute for Biomedical Informatics and the Leonard Davis Institute of Health Economics, University of Pennsylvania. He previously served as associate editor for Radiology and the American Journal of Roentgenology (AJR), section editor for the Yearbook of Medical Informatics, guest editor for the Journal of the American College of Radiology (JACR), and chair of the Publications Committee of the American Roentgen Ray Society (ARRS). Dr. Kahn has authored or co-authored more than 110 peer-reviewed articles, and given nearly 100 invited lectures.

“Radiology: Artificial Intelligence *is an exciting venture*,” **Dr. Kahn** said. “I’m deeply honored for the opportunity to serve as this newjournal’s editor, and look forward to working with our authors, reviewers and editorial team to present cutting-edge science in this rapidly growing field.”

“With his extensive editorial experience and profound interest in the fields of artificial intelligence and machine learning, Charles Kahn is a natural fit for this role,” said **Mary C. Mahoney, MD**, RSNA Board liaison for publications and communications. “The RSNA Board is excited to see where he takes this important new journal.”

## Submit Your Manuscript Today!

Dr. Kahn invites high-quality manuscripts that:

- Show the impact of AI to diagnose and manage patients, extract information, streamline radiology workflow, or improve healthcare outcomes
- Demonstrate novel applications of AI in radiology
- Highlight innovative AI methodologies

The journal also seeks thoughtful, meaningful reviews and opinion pieces focused on:

- Education about AI
- AI’s role to educate radiologists, referring providers, and patients
- The ethical, legal, and social issues surrounding AI

Visit [RSNA.org/AI](https://www.rsna.org/AI) to submit your materials now to be among the first published in this important new journal.
