# Radiology: Imaging Cancer

## Meet the Editor

### Gary D. Luker, MD

Dr. Luker is professor of radiology, microbiology and immunology, and biomedical engineering at Michigan Medicine in Ann Arbor, MI., where he serves as associate chair for clinical research in the department of radiology. He is also an attending physician at C.S. Mott Children's Hospital in Ann Arbor, MI. Dr. Luker has served in editorial positions and provided peer review for a number of journals, including *Journal of Immunology*, *Journal of Nuclear Medicine*, *Integrative Biology*, *the Proceedings of the National Academy of Sciences*, and on multiple editorial boards, including Pediatric Radiology and Tomography.

## Submit Your Manuscript Today!

*Radiology: Imaging Cancer* invites high-quality original research, review articles, and perspectives focusing on intersections of imaging with cancer biology, diagnosis, treatment, and outcomes.

Scope of the journal includes:

- Pre-clinical imaging studies
- Co-clinical trials for precision oncology
- Clinical studies developing and testing imaging biomarkers
- Interventional oncology
- Emerging imaging technologies
- Artificial intelligence applied to cancer imaging
- Quality improvement

“I am delighted that RSNA is founding a new journal dedicated to cancer imaging,” **Dr. Luker** said. “I want this new journal to become a must-read, not only for imaging specialists, but also for people outside the field who want to advance imaging science and research for drug development and precision medicine in cancer. I am honored to be selected as editor.”

“Gary Luker's dedication and vast knowledge of cancer research makes him the ideal person to helm RSNA's new journal, *Radiology: Imaging Cancer*,” said **Mary C. Mahoney, MD**, RSNA Board Liaison for Publications and Communications. “The RSNA Board eagerly anticipates the launch of this exciting new journal.”
